Default Setting for Home Mode: Level 2 concentration, Level 2 timer

APP CONTROL

1. Download APP

Scan the QR code above with a browser, or search "Scent Lab" on Google Play/App Store to download and install.

Important Note: Authorize required permissions (location service, Bluetooth connection, etc.) for normal APP function.

Scent Lab

Download on the App Store

GET IT ON Google Play

(IOS+Android)

2. Add Device

• Scan to connect: Scan the QR code on the device.
• Search to connect: Enter APP homepage & tap "Connect Device" to search and connect.
1) My Devices: Displays historically connected devices; tap to enter management page, long-press to remove.
2) Available Devices: Displays Bluetooth-range devices; tap to enter details page.
Bluetooth icon on the device display lights up when connected.

3. Device Details Page

• Operation Status: One-click start/standby control.
• Ambient Light: One-click color switching.
• Factory Reset: Restore default settings.
• Working Mode: 5-stage mode; tap to customize week, scheduled on/off time, fragrance frequency, etc. (Running time: 5~60s; Pause time: 90~600s).
• More: Tap top-right to rename device, etc.

OIL CONSUMPTION LIST

Level	On time(s)	Pause time(s)	Consumption (g/h)
Minimum concentration	5s	300s	0.02
Medium concentration	10s	260s	0.05
Maximum concentration	20s	180s	0.13
100% Test	Continuous On	0	1.32

Note: The data is for reference only. The amount of mist produced by different essential oils may vary. The data above is based on the essential oil used in the test: Park Hyatt (density ≥ 0.95).

MAINTENANCE

If the equipment is not used for a long time, 95% industrial alcohol should be added into the refined oil bottle to clean the nozzle and other parts inside the equipment. Tip: Maintain the equipment with 95% industrial alcohol at least every 1-2 months.
Specific operation: add 95% industrial alcohol into the empty bottle, turn on the equipment and run for 10-15 minutes after , then turn off the equipment and pour the alcohol, then screw back the bottle to machine.

⚠ SAFETY PRECAUTIONS

- Safe Usage:

① After loading oil, keep the device upright; do not invert/tilt to avoid internal damage.
② Empty the oil bottle before transport to prevent leakage.
③ Do not use for humidification or add water.
④ Keep out of reach of children and pets.
⑤ Store in a dry, cool place; avoid high temperatures or humidity.

- Prohibited Actions:

① Do not cover the device during operation. Keep power sockets/adapters away from the mist outlet to prevent corrosion.
② Do not use overloaded sockets, damaged cables, or plugs (risk of damage/fire).
③ Do not ingest oil or let it contact eyes. Rinse eyes with water if contact occurs; seek medical help if irritation persists.
④ Do not disassemble the device. Contact us immediately if abnormalities occur.
